X Monitors overall voltage

X Local display via the RGB

X Embedded free software

X Choice of UK, Schuko, C13 and C19 socket types

X Horizontal and vertical options

X Individual socket monitoring and individual socket switching

## Product Overview

The Excel Intelligent INT3 is designed to provide local and remote overall power monitoring as well as individual socket monitoring and switching, it is available with up to 48 sockets.
The Excel Intelligent INT3 can work as an individual master or run as a master and slave system. One master can have up to 31 slaves, all from one IP address, reducing the requirement for multiple IP addresses.

The Excel Intelligent INT3 comes with free software making it a highly competitive solution allowing the user to monitor and report on up to 50 IP addresses with the software. In theory it is possible to have up to 1600 PDU's each with up to 48 outlets per PDU, all from one free software licence.
