Product Overview

The Excel 1 Door Fibre Optic Wall Mounted Enclosures provide a cost effective, secure method of terminating fibre where standard 19" cabinets and patch panels are not suitable. Each unit is supplied unloaded, just add to your chosen enclosure the required plate and Adaptors. The single door comes complete with a lock fitted for security. Available in two sizes depending on the number of fibre cores requiring termination and connection. The range of adaptor plates accept Singlemode and Multimode ST, SC & LC fibre optic adaptors. The wall box may also be used as a secure fibre optic splice enclosure by adding the required number of splice holders and omitting the adaptor plates.
