

✕ 25 year warranty

✕ 100% Optical Test

✕ Test Certificate with each cable

✕ Batch Number Tracking

Features

- 25 year warranty
- Test Certificate with each cable
- Low smoke zero halogen cable
- 900 or 600µm 62.5/125µm duplex cable
- High quality connectors
- Receive and transmit legs clearly indicated
- 100% Optical Test
- Batch Number Tracking
- Available with grey or orange outer sheath
- Broad range of connectivity options
- Each cable is individually bagged and labelled
- Factory terminated under ISO9001 quality control procedures

Product Overview

Excel duplex patch leads are manufactured from the highest quality 900 or 600µm optical fibre, terminated with ceramic ferrule connectors of various types. Cable preparation, termination and testing is carried out to strictly managed procedures in an Excel approved manufacturing facility. Applications include the connections between optical patching panels and network or server equipment and directly from devices to the local or wide area network or physical security equipment.

Each cable has strain relief boots to prolong and maintain performance levels of the assembly, transmit and receive 'legs' of each duplex cable are identified by means of ring type cable marker fixed to each end the assembly. A short distance from these identification rings heat shrink is applied to maintain an easy to manage bonded two fibre cable, finally a label containing a unique batch number is fixed to the centre of cable for quality and traceability purposes.
