Product Overview

Excel range of power distribution units are designed for installation and use within 19" networking cabinets and enclosures. Each unit comprises a high quality aluminium extruded housing into which are loaded up to 12 sockets. In this particular range each socket is 'NFC - French' style.

The range of available units includes 19" horizontally mounted, higher density vertical mounted options, and a choice of styles with our without switches to control input power to the unit itself. The unswitched versions have an LED indicator to confirm power to the unit, in the switched versions the switch itself acts as the LED indicator, as shown in the drawing below.
